The Fraser Educational Foundation is a nonprofit, tax-deductible organization. The objective of the foundation is to provide funding that will enhance teacher creativity, student enrichment and community involvement through activities that go beyond the scope of normally funded school budgets and responsibilities.

The foundation supports Fraser schools with donations from teachers, individuals and local businesses. Over the last 20 years, the Fraser Educational Foundation has averaged \$12,000 in grants annually.

The grant program supports funding for all levels (DK-12). Some examples of recent projects the foundation has supported include grants for the purchase of books, supplemental education programs, online access to special interactive technology websites, virtual simulation software, and much more.
